PROJECT DESCRIPTION

PROJECT OVERVIEW

These days number of colleges is increasing day by day which is emerging as a new problem for the people to manage all the things of universities manually even after giving their best they left with some error. To rectify that and to minimize that to zero, Agumentik Software Private Limited is introducing University Management Software which not only benefits the management team in handling all the activities, but also it helps the students in managing their accounts and details. It gives facilities related to exams, results, fees, syllabus, schedules, payments, statistics, report and many more to help universities in building nation with these easy and small steps.

FEATURES

1 **Front Office** - **For all reception/front office related activities like inquiries, calls, visitors, postal receive/dispatch.**

2 **Student Information - For all the information related to the student like student search, profile, student admission, student history.**

3 **Fees Collection - For all the details related to student fees collection, fees master creation, fees dues, fees report.**

4 **Income - For all the income other than fees collection can be managed here like add income, search income, income head.**

5 **Expenses - For all the expenses related to University can be managed here like add expenses, search expenses, expense head.**

6 **Attendance - For managing student attendance and attendance report.**

7 **Examinations - For managing all the exams conducted by University like create an exam, schedule exam, exam marks entry, mark grade.**

8 **Academics - For managing all the parameters/master data required to run University like classes, sections, subjects, assign teachers, class timetable, promote the student to upper class.**

9 **Human Resource - For all the information related to staff members can be managed here like staff search, profile, attendance, payroll, leaves.**

10 **Communicate - It works like a notice board basically a messaging system for communication to students, parents, and teachers.**

11 **Download Center - For managing** downloadable documents like assignments, study material, syllabus, and other documents need to distribute students and teachers.

12 Homework - Teachers can give homework here and further evaluate them.

13 Library - All the books in your library can be managed here.

14 Inventory - Manage all the assets of your university with stocks and store under inventory module.

15 Transport - For managing transportation services like routes and their fares.

16 Hostel - For managing hostels, hostel rooms and their fares.

17 Front CMS - Manage the front public site of Smart University here by creating pages, menus, events, gallery, news.

18 Reports - All the various reports related to different modules can be found here.

19 System Settings - Configure Smart University here for different settings like University, sessions, admin password, SMS, PayPal, backup/restore, languages.

20 Calendar & To-do List - Track and manage all daily/monthly activities and create your task in the to-do list.

THE TIMELINE

01 INITIAL PLANNING

The first order of business is to sit down with your team and create a detailed set of design and technical specifications. These specifications serve as a road map for the rest of the design process.

Estimated duration:
2 weeks

Involved persons:
6 persons

02 WIREFRAMING

Wireframes are your first chance to visualize your website. While they are not nearly as detailed as the final site will be, they give us a visual representation of the sites overall layout.

Estimated duration:
2 weeks

Involved persons:
all team

03 MOCKUPS

Once all site mockups are completed and approved, we'll proceed with site mockups. These add color and a bit more detail to the initial wireframes, giving us a stronger visual representation of the final product.

Estimated duration:
4 weeks

Involved persons:
2 persons

04 COPY & GRAPHICS

Once we have agreed on a final design based on the mockups, our team will proceed with development kicking off two phases in unison. The first involves creating your site's copy and next is graphics.

Estimated duration:
5 weeks

Involved persons:
3 persons

05 DEVELOPMENT

At the same time, we wil kick off the technical side of the web design process. This will include deploying CMS, creatng your custom theme and page designs, and setting up your website's analytics.

Estimated duration:
2 weeks

Involved persons:
6 persons

06 TESTING

Once our writers, designers, and developers have finished their work, our Quality Assurance team will get to work testing your site's performance and reliability. We will use various tools to benchmark your site for loading, responsiveness, and speed while also ensuring that it works reliably on all web browsers and mobile devices.

Estimated duration:
2 weeks

Involved persons:
5 persons

07 DEPLOYMENT & OPTMIZATION

Once we are sure that your site is ready to be released to the public, we will deploy it on your public domain. Then, we will shift into a monthly support process that will continue for 12 months. During this period, we will create monthly backups of your site, update scripts and plugins to maintain security and reliability, and perform layout and content updates at your request.

Estimated duration:
2 weeks

Involved persons:
6 persons

Company], or that [Client.Company] has permission from the rightful owner to use each of these elements, and will hold harmless, protect, and defend Agumentik Software Private Limited and its subcontractors from any claim or suit arising from the use of such elements furnished by [Client.Company]

Sole Agreement

The agreement contained in this Contract constitutes the sole agreement between Agumentik Software Private Limited and [Client.Company] regarding this project. Any additional work not specified in this contract must be authorized by a written change order. All prices specified in this contract will be honored for three (3) months after both parties sign this contract. Continued services after that time will require a new agreement.

Initial Payment & Refund Policy

If [Client.Company] halts work and applies for a refund within 4 days, work completed shall be billed at the hourly rate of [Hourly.Rate], and deducted from the initial payment, the balance of which shall be returned to [Client.Company] . If, at the time of the request for a refund, work has been completed beyond the amount covered by the initial payment, [Client.Company] shall be liable to pay for all work completed at the hourly rate stated above.

Legal & License

Agumentik Software Private Limited warrants that the functions contained in this project will meet [Client.Company] requirements and that the operation will be reasonably error-free.

The entire risk as to the quality and performance of the project is with [Client Company]. In no event will Agumentik Software Private Limited be liable to [Client.Company] or any third party for any damages, including any lost profits, lost savings or other incidental, consequential or special damages arising out of the operation of or inability to operate the website, even if Agumentik Software Private Limited has been advised of the possibility of such damages.

If any provision of this agreement shall be unlawful, void, or for any reason is unenforceable, then that provision shall be deemed severable from this agreement and shall not affect the validity and enforceability of any remaining provisions.

CASE STUDY

Managing and willing to pace up with the latest trends and bringing your university into an effective management is a challenging work. The changing environment of the education sector has driven towards advanced technology. These technologies are slowly but substantially replacing tradition and dull practices of managing the University. Adoption of University management software has turned to a better solution.

In recent years, University management software has improved and schools can find new solutions that provide greater value ever before. Still today many schools are using dated, client server University management software or even pencil and paper. Open source technologies and cloud computing platforms provide schools to take advantage of modern functionality.

So it's very crucial for every business person to understand that selecting the best University management software will make their University more efficient and will save valuable time.

*"A successful website does three things:
It attracts the right kinds of visitors.
Guides them to the main services or product you offer.
Collect Contact details for future ongoing relation."*

CHALLANGE

The current traditional education system in which students receive the required knowledge by sitting in classes, memorizing prepackaged assignments, and spitting out answers, it's not keeping up with the drastic changes in the educational fields in term of how much knowledge students can learn and the skills they need to survive in modern society.

SOLUTION

Since education is modern up every couple of years, we took it upon ourselves as a challenge to create Mlearns as an online platform that keeps up with all the changes in the educational field. Mlearns provides not just a way to learn any skill anywhere it is a platform design with future changes in mind and easy UI/UX that can be used by anyone.

TESTINOMIALS

"I opted for Agumentik's website development and SEO services. Their service, relation and creative inputs towards customer is highly appreciable. They are not only providing IT solutions but also adding life to your online existence of business through their value added services."

- Pravin Jaiswal

"It was very difficult to manage all the tasks of keeping information of the students, teacher, and other working staff manually without any mistake it generally engages my most potential staff. But now after installing UMS software at the University, it's so easy that everyone is working freely without any difficulty. It gave a boost to our system. I like to thank team Agumentik for such stunning software"

- Monamie Banerjee

"The best experience I have ever earned by flying with this company is the commitment towards duty, besides being friendly and supportive. It develops an exemplary relation with its clients, which is surprising, wow !!."

- Nelson Rai

THANK YOU
